Time Allocation
This unit of work will consist of approximately 100 hours of which at least 50 hours will be class time. To complete this unit of work satisfactorily, students must complete each of the following learning outcomes.

Learning Outcomes
Outcome 1
On completion of this unit the student should be able to demonstrate specialist production skills within collaborative media productions, and explain and reflect on the media production process.

Outcome 2
On completion of this unit the student should be able to discuss media industry issues and developments relating to the production stages of a media product, and describe specialist roles within the media industry.

Outcome 3
On completion of this unit the student should be able to describe characteristics of Australian media organizations and discuss the social, cultural, and industrial framework within which such organizations operate.

Assessment Tasks
1. Media Production
The student is required to contribute to different production stages in creating a media product in a collaborative production team.
Weighting: This task is worth 25% of the overall grade
Time allocated to task: 19.5 periods
