Time Allocation
This unit of work will consist of approximately 100 hours of which at least 50 hours will be class time.

To complete this unit of work satisfactorily, students must complete each of the following learning outcomes.

Learning Outcomes

Outcome 1
The student should be able to compare the health status of Australia’s population with that of other developed countries, compare and explain the variations in health status of population groups within Australia and discuss the role of the National Health Priority Areas in improving Australia’s health status.

Outcome 2
The student should be able to discuss and analyse approaches to health and health promotion, and describe Australia’s health system and the different roles of government and non-government organisations in promoting health.

Assessment Tasks

1. Australia’s Health
The student is required to compare the health status of Australia’s population with that of other developed countries, compare and explain the variations in health status of population groups within Australia.

Weighting: This task is worth 30% of Unit 3 course work
Due: Term 1, Week 6

2. National Health Priority Areas Data Analysis
The student is required to discuss the role of the National Health Priority Areas in improving Australia’s health status.

Weighting: This task is worth 30% Unit 3 course work
Due: Term 1, Week 9

3. Promoting Health In Australia
The student is required to analyse approaches to health and health promotion, and describe Australia’s health system and the different roles of government and non-government organisations in promoting health.

Weighting: This task is worth 40% of Unit 3 course work
Due: Term 2, Week 6
